

BAXI S.p.A.

PRIME HT

This exploded view diagram illustrates the assembly of a refrigerator. The main components shown include the top panel (2), the refrigerator compartment door (3), the freezer compartment door (4), and the base panel (147). The central unit consists of the evaporator fan motor (30), the compressor (32), and the condenser coils (34). The diagram also shows the defrost timer (140), the defrost heater (138), the defrost thermostat (139), the defrost switch (136), the defrost control (135), the defrost motor (134), the defrost relay (133), the defrost solenoid (132), the defrost valve (131), the defrost line (130), the defrost drain (129), the defrost pan (128), the defrost pan gasket (127), the defrost pan support (126), the defrost pan bracket (125), the defrost pan screw (124), the defrost pan nut (123), the defrost pan washer (122), the defrost pan seal (121), the defrost pan plug (120), the defrost pan cap (119), the defrost pan cover (118), the defrost pan liner (117), the defrost pan insert (116), the defrost pan trim (115), the defrost pan base (114), the defrost pan flange (113), the defrost pan gasket (112), the defrost pan support (111), the defrost pan bracket (110), the defrost pan screw (109), the defrost pan nut (108), the defrost pan washer (107), the defrost pan seal (106), the defrost pan plug (105), the defrost pan cap (104), the defrost pan cover (103), the defrost pan liner (102), the defrost pan insert (101), the defrost pan trim (100).

Callout box A shows the defrost pan assembly, including the defrost pan (120), defrost pan gasket (112), defrost pan support (111), defrost pan bracket (110), defrost pan screw (109), defrost pan nut (108), defrost pan washer (107), defrost pan seal (106), defrost pan plug (105), defrost pan cap (104), defrost pan cover (103), defrost pan liner (102), defrost pan insert (101), and defrost pan trim (100).

Callout box B shows the defrost pan assembly, including the defrost pan (120), defrost pan gasket (112), defrost pan support (111), defrost pan bracket (110), defrost pan screw (109), defrost pan nut (108), defrost pan washer (107), defrost pan seal (106), defrost pan plug (105), defrost pan cap (104), defrost pan cover (103), defrost pan liner (102), defrost pan insert (101), and defrost pan trim (100).
